Amendments to the Claims

This listing of claims replaces all prior versions and listings:

1. (Currently Amended) A composition comprising a particle including a core and a shell, the core including a metal carbide and the shell including a carbon nanoparticle nanotube chemically attached to at least a portion of a surface of the core.

- 2. (Original) The composition of claim 1, wherein the metal carbide is silicon carbide.
- 3. (Currently Amended) The composition of claim 1, wherein the carbon nanoparticle nanotube includes fullerenic carbon.
- 4. (Original) The composition of claim 1, wherein the shell covers at least 50% of a surface of the core.
- 5. (Original) The composition of claim 1, wherein the particle includes at least 2% by volume carbon nanoparticles.
- 6. (Original) The composition of claim 1, wherein the shell has an average thickness of at least 2.5 nanometers.
- 7. (Original) The composition of claim 1 wherein the particle has an average diameter of less than 100 micrometers.
- 8. (Currently Amended) The composition of claim 1, wherein the carbon nanoparticle nanotube includes a single-walled or multi-walled carbon nanotube or a nanofiber chemically attached to the core at at least one end.

Serial No.: 10/510,482 Filed: April 19, 2005

9. (Currently Amended) The composition of claim 1, wherein the carbon nanoparticle nanotube includes a carbon nanotube or carbon nanofiber open at an end.

- 10. (Currently Amended) The composition of claim 1, further comprising a coating of metal or metal oxide on the carbon nanoparticle nanotube.
- 11. (Currently Amended) A composite abrasive particle comprising a core and a shell, the core including a metal carbide and the shell including a carbon nanoparticle nanotube chemically attached to at least a portion of a surface of the core.
- 12. (Currently Amended) The composite abrasive particle of claim 11, further comprising a coating of metal or metal oxide on the carbon nanoparticle nanotube.
 - 13. (Original) A grinding or finishing product comprising the particle of claim 1.
 - 14. (Original) The product of claim 13, wherein the metal carbide is silicon carbide.
- 15. (Original) The product of claim 13, wherein the product is a grinding wheel, a cutting wheel, a coated abrasive or a suspension of abrasive particles in a liquid.
 - 16. (Original) A structurally reinforced composite comprising the particle of claim 1.
- 17. (Original) The composite of claim 16, wherein the metal carbide is silicon carbide.
 - 18. (Original) An electrochemical storage medium comprising the particle of claim 1.
 - 19. (Original) A hydrogen storage medium comprising the particle of claim 1.

Serial No.: 10/510,482 Filed: April 19, 2005

20. (Original) The storage medium of claim 18 or 19, wherein the metal carbide is silicon carbide.

- 21. (Currently Amended) A composition comprising a particle including substantially densely-packed carbon nanoparticles nanotubes.
- 22. (Currently Amended) The composition of claim 21, wherein the carbon nanoparticles nanotubes include fullerenic carbon.
- 23. (Currently Amended) The composition of claim 21, wherein the carbon nanotubes include a single-walled or multi-walled carbon nanotube or a nanofiber.
- 24. (Original) The composition of claim 23, wherein at least one end of the nanotube or nanofiber is closed.
- 25. (Original) The composition of claim 23, wherein at least one end of the nanotube or nanofiber is open.
- 26. (Currently Amended) The composition of claim 21, further comprising a coating of metal or metal oxide on the carbon nanoparticles nanotubes.
- 27. (Currently Amended) An abrasive particle comprising substantially densely-packed carbon nanoparticles nanotubes.
- 28. (Currently Amended) The particle of claim 27, further comprising a coating of metal oxide or metal on the carbon nanoparticles nanotubes.
- 29. (Original) A grinding or finishing product comprising the composition of claim 21.

Serial No.: 10/510,482 Filed: April 19, 2005

30. (Original) The product of claim 29, wherein the product is a grinding wheel, cutting wheel, coated abrasive, or suspension of abrasive particles in a liquid.

- 31. (Original) A structurally reinforced composite comprising the composition of claim 21.
- 32. (Original) An electrochemical storage medium comprising the composition of claim 21.

1 ;

33. (Original) A hydrogen storage medium comprising the composition of claim 21.

34.- 49. (Canceled)
